NICS Transactions Added to Module 7 Certifications

Currently, only users certified in Module 4 – Concealed Handgun Permits have access to the NICS transactions involving the NICS Denied Persons File. This file includes access to query, enter, modify, supplement, and cancel records in the NICS Denied Persons File. Now users certified in Module 7 – Disposition of Firearms will also have access to these transactions.

Pertinent Info:

Additional NICS transactions have been added to DCIN users with a Module 7 – Disposition of Firearms certification. These transactions will include:

- Query Denied Persons (QDP)
- Entered Denied Persons (EDP)
- Modify Denied Persons (MDP)
- Supplement Denied Persons (SDP)
- Cancel Denied Persons (XDP)

This will allow agencies to perform queries, entries, updates, and cancellations within the NICS database regarding persons who have been denied access to firearms. Training for these transactions will be provided in the online Module 7 certification classes as well as upcoming TAC meetings to be announced soon.

For individuals who already have a Module 7 certification, enrollment in Module 7 classes is encouraged to become familiar with these transactions and their purpose. The Module 7 class is completely online and approximately two (2) hours in length.

In the meantime, personnel are welcome to review the Module 4 – Concealed Handgun Permit NICS Indices Section (pages 18-23). The module 4 manual can be found in Omnix Links, Training or by [clicking here](#).
